

Target

A1-a: What lesson does _____ learn in this story?

How to hit the target:

- Notice the “bad behavior” at the beginning of the story. (What is “bad” about this?)
- Notice how the character’s or person’s behavior changes. (How does the person act at the end of the story? Where do you first notice the change?)
- Figure out what lesson the character or person learned that changed bad behavior to good behavior.
